**E**STABLISHED IN DUBAI in 1993, WA International is renowned for creating exquisite interiors for the hospitality market. The company has established an enviable clientele with longstanding relationships reflecting its commitment to perfecting unique interiors.

The Westin Dubai – Al Habtoor City is an award-winning example. As Westin Hotels’ brand originates from the North West of America and the Rocky Mountains, WA International localised this theme by taking inspiration from the Al Hajar Mountains. The Westin brand’s brief and design concept was not only based on nature, it was the perfect blend of nature’s organic elements combined with the decorative arts and architecture movement of Art Deco.

The influence of Frank Lloyd Wright, an architect of far reaching vision who followed a philosophy he named ‘organic architecture’, can be clearly seen in the hotel’s spaces. The Westin brand’s colour palette is harmonious, subtle and rich and so the main lobby features a neutral base of beige grey and taupe with subtle accents of greens, blues and browns. Classic and timeless guest rooms are also influenced by the stylised motifs of the Art Deco movement.

Rich, energising textures and peaceful patterns harmonise the interior mood, leaving guests transformed through a feeling of wellness and wellbeing. A stay at The Westin Dubai offers the opportunity to experience both the tranquility of nature’s elements as well as the timeless design aspects of the Art Deco movement.

**BEST HOTEL INTERIOR ARABIA** The Westin Dubai - Al Habtoor City by WA International
