Azerbaijan

The five-star JW Marriott Absheron in Baku, opened in March 2012 and is the latest project from WA International. Inspiration for the interiors comes from the history and architecture of Azerbaijan.

Overlooking the Caspian Sea yet centrally located, adjacent to the country's parliament building and a variety of tourist attractions, this luxury 243 key hotel caters for both business and leisure customers. The décor throughout its 227 bedrooms and 16 suites, its bars, restaurants and spa, echoes the central tenets of Azerbaijani culture, introducing them to an international clientele.

The country's fire heritage is reflected in the Fireworks restaurant, where food is cooked over an open

flame and shades of red and orange dance across the furnishings. By contrast, the opulent OroNero restaurant highlights Azerbaijan's natural wealth – black gold or oil, while the architecture of the 12th century Maiden Tower, one of the city's most famous monuments, finds its resonance in the Razzmattazz cocktail bar.

Azerbaijan's close relationship with the sea is seen in the glass bubble chandeliers gracing the hotel's reception areas and restaurants, the wavy oak beams of its luxury spa, even the fish-like designer lighting of the rooftop pool. The lavish bedrooms boast wave-pattern carpets, metallic seaweed shape wall art and turquoise accessories; all of them enjoy views of the sea as well as the city.
