# Passionate about design

Renowned for creating exquisite interiors for the hospitality market for over 30 years, WA International's Dubai design studio was established in 1993. Since then it has nurtured an award-winning reputation and established an enviable clientele – with longstanding relationships reflecting the company's superlative performance and commitment to unique interiors.

A leader in hospitality design, WA International understands the changing industry trends which are governed by today's more sophisticated world traveller. The company's detailed knowledge and passion for design, combined with a precise interpretation of its clients' requirements, enables it to work with them to develop solutions. These respond to both immediate and long term goals; raising standards, and ultimately enhancing the brand equity of a project's owner and operator.

Keenly attuned to the pulse of changing industry trends, WA International embraces the influences of location, new technology and fresh ideas as it strives to create exclusive, avant-garde and viable solutions which push the aesthetic envelope and influence design standards at a global level.

## Innovative interiors

The company has built its reputation and strengthened its philosophy of designing through innovation, not formulae. Just as no two clients have the same requirements, no two design solutions have the same approach. WA International believes that every project presents a unique opportunity to create a truly distinctive interior – one that is sensitive to its location, architecture and client's vision. It is with this versatility, originality and creativity that its designs continue to inspire.

WA International's latest project, One & Only The Palm, is the embodiment of just this philosophy. It's located on the peninsula of one of the world's most spectacular landscapes, Palm Jumeirah, Dubai; although the building takes its influence from Andalusian architecture, WA International simplified traditional interior detailing, to create pure architectural forms, with clean lines and contemporary finishes.

The company utilised a diverse array of materials, such as marble inlay to the floors, decorative textured plaster walls, mashrabiya screens, back-lit etched glass and embossed metal to create the exotic, yet relaxed interior to this boutique resort hotel.
